Your mission, should you choose to accept it,, is to concoct an ingenious idea that will catapult Hito—the AI mentor matchmaker—into viral stardom on LinkedIn!

The Challenge:

Design an innovative product or feature that leverages Hito's capabilities to make it go viral on LinkedIn. No coding required (yet). Just whip up a mind-blowing concept that's so compelling, even your grandma would share it (and she thinks "the LinkedIn" is a fancy chain-link fence).

APIs at Your Disposal:

To aid in your wizardry, here are the enchanted artifacts (APIs) you can tap into:

- **Hito's Search/Chat API:** Dive into Hito's conversational prowess and mentor-matching magic.
- LinkedIn Post Search API: Unearth posts, topics, and trends on LinkedIn to weave into your creation.
- LinkedIn Post Comment API: Engage, interact, and influence the LinkedIn-verse through comments.
- **LLM** of your choice.

Rules of Engagement:

- Team Formation: Assemble your fellowship (up to 3 members) or fly solo like a rogue coder.
- Idea Submission: Present your idea in any format—be it a PPT, PDF, or even a meme compilation (digital scrolls preferred).
- Deadline: The clock strikes midnight on [Insert Date], so don't let the procrastination goblins win!
- Originality is King: No cloning spells! Your idea must be original and not a replica of existing sorcery.

Submission Guidelines:

- Title: Give your idea a catchy name. Make it meme-worthy!
- Description: Explain your concept in detail.
 - Output
 How does it work?
 - How does it leverage the APIs?
 - Our How will it make Hito go viral?
 - Impact Analysis: Show us the potential. -> Data from current platforms and campaigns
 - Output
 How many users could it reach?
 - What's the viral hook?
- Implementation Plan: Outline how you envision bringing the idea to life. Remember, you'll be working with us to make it happen!
- Submission should be made through whereuelevate
- Judgement criteria:
 - More whacky the idea, more points will be given
 - Ideas that can go viral like a wildfire will be given preference
 - While feasibility is one of the filters, but you can think as wild as you can
- Acceptance criteria:
 - You should submit a full-fledged plan for the idea
 - Estimate the timeline of implementation
 - Give examples of any external services those will be used

Posts API

- 1. Permissions
- 2. Create a Post
- 3. Get Posts by URN
- 4. Batch Get Posts
- 5. Find Posts by Authors
- 6. Find Posts by Account
- 7. <u>Update Posts</u>
- 8. Delete Posts
- 9. <u>Mentions and Hashtags using</u>
 <u>Posts commentary</u>
- 10. <u>Enable or Disable Comments</u> <u>Section on a Post</u>

Comments API

- 1. Social Actions Comments
- 2. Comment Urns
- 3. Get a Comment
- 4. Batch Get a Collection of Comments
- 5. Get Comments on Shares
- 6. Get Comments on Comments
- 7. Common Retrieval Errors
